Jacob Watts (tay24032 @ gmail dot com) sent me the following email:

> Your claim that SB 145 would eventually legalize rape or pedophilia in the state is bullshit. The reality is there's no treatment for pedophilia, which is technically the sexual attraction to children under 13. Ephebophilia is a chronophilia for older teens 15+, while hebephilia is a chronophilia for younger teens going through puberty. Pedophilia and rape are NOT legal in California because the law does not apply to minors under the age of 14. You don't even live here so why do you give a fuck??? If you ever post shit like that again I'll burn you and stick my cock down your throat. Fucking prick. Homophobic ass cunt.

There's not much to say, other than don't send me messages that threaten violence if you don't want to get doxed. To all my followers, fell free to send this nice lad a short message (then block him). Be respectful!

PS: It seems he's arguing being against pedophilia is homophobic. Freudian slip or truism?
